For Immediate Release

Hazardous Area Stainless Steel Compression Fittings

Jaeco Grip-Seal® stainless steel coupling, tee and 90° elbow compression pipe and tube fittings are quickly installed, reusable and require no line purge, open flame or special tools making them ideally suited for hazardous areas.

Grip-Seal fittings have a 100% full-flow area with no crevices where fluid can stagnate. Fluid contacts only the Teflon™ seal in straight fittings and only the Teflon seal or 316 SS in elbows and tees.

Available in a wide range of sizes for both IPS Pipe, 1/4" thru 4" and OD Tubing 1/2" thru 2" their pressure ratings vary with size: 1/4" – 1" = 1,000 PSI, 1 1/4" – 2" = 500 PSI and 2 1/2" – 4" = 500PSI.

Jaeco also manufactures Diaphragm and Packed Plunger metering pumps, and stainless steel Poppet and Ball check valves.
